

DRAW YOUR SEMESTER!

CREATIVE DIGITAL STORYTELLING

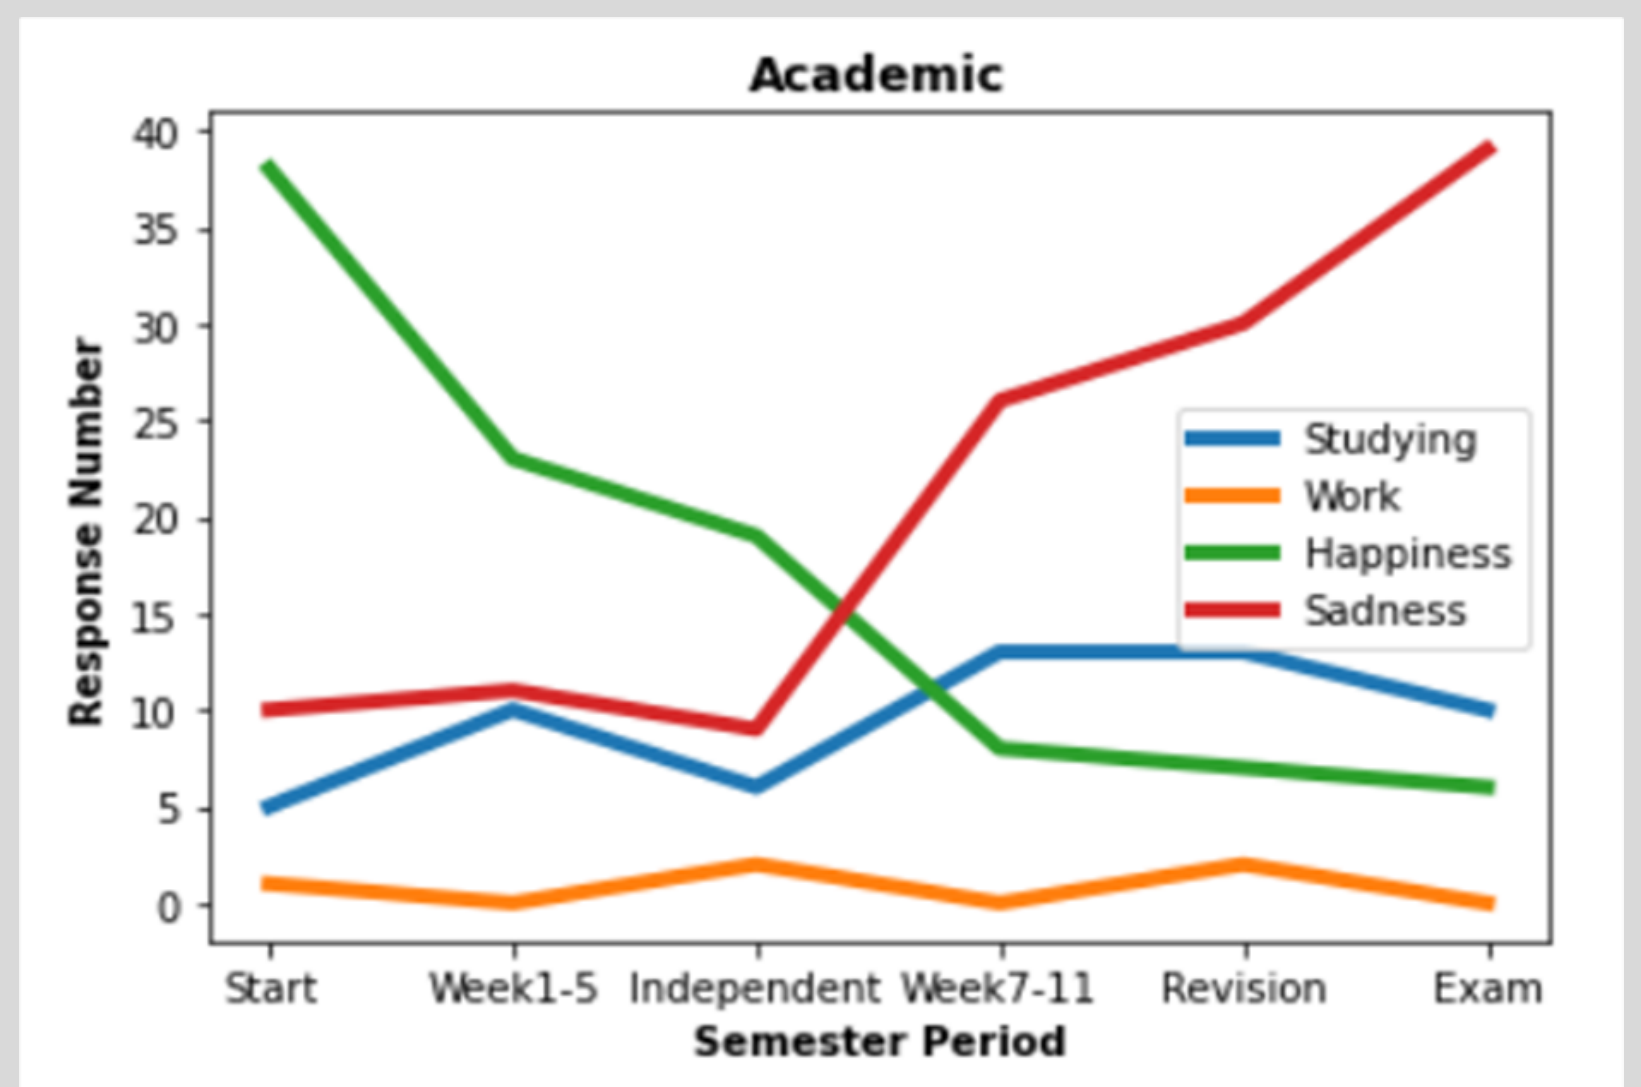

Nicole Cizauskas & Hitanshi Badani

Students were asked to draw their semester in six blocks, each representing a different time period.

The results give insight into how the student experience changes across a single semester and how online/hybrid learning may affect it.

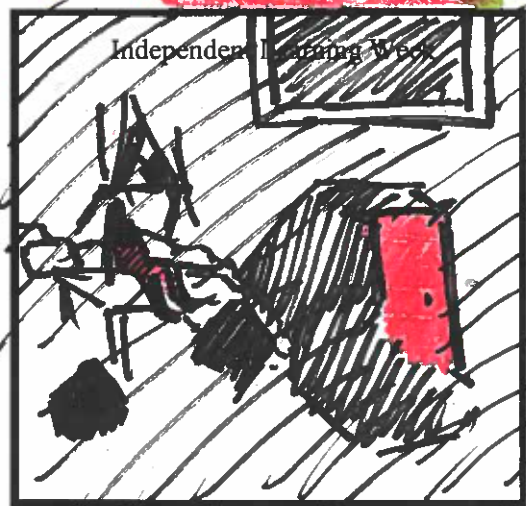

Examples of real submissions can be seen to the right. This study was conducted twice: for Semester 1 (2021-2022) and Semester 2 (2021-2022)

Thematic analysis for the first study revealed an increase in themes of sadness in later semester periods
