Externally - Interconnect and the Scottish Resource Centre for Women

Internally - University of St Andrews STEM School Presidents; HR; CAPOD; and the Students' Association

Charter for women in science
Recognising commitment to advancing
women's careers in STEMM academia

Scottish Resource Centre
For Women in Science, Engineering & Technology

Staff Sign-up to become a speaker

Are you an existing female academic working in a STEM subject at the University?

If so, we invite you to give a short talk, about five minutes, about your experiences in advancing in your career.

Your input in the event could prove to be inspirational to female students or to female academic staff who are new to working in STEM subjects.

Please email your interest to: Sukhi Bains sb104@st-andrews.ac.uk
