A-Z of Medical Conditions

- In April 2012 the <u>DWP</u> replaced the previous 'Disability Living Allowance Handbook' with guidance to help correlate conditions relating to a disability.
- The guide provides signposting to the specific <u>NHS Choices</u> and other <u>DWP</u> webpages for more detail about a condition.

To view a condition, simply type the word into the "Find" or "Search".

Look up	Condition
Achondroplasia / Restricted growth	NHS Choices
Acne vulgaris	NHS Choices
Acromegaly	NHS Choices
Acquired Immune Deficiency Syndrome (AIDS / Symptomatic HIV)	HIV / AIDS
Acute Respiratory Distress syndrome (ARDS)	NHS Choices
ADD	Learning Disability
Addison's disease	NHS Choices
ADHD	NHS Choices and Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Adhesive capsulitis (Frozen shoulder)	NHS Choices
Adjustment disorders	Post Traumatic Stress Disorder
Adrenal diseases:	
Addison's disease	NHS Choices
Cushing's syndrome	NHS Choices
Adrenal disease – Other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Ageing	Ageing
Agoraphobia	Anxiety Disorders
AIDS (Symptomatic HIV) / AIDS dementia complex	HIV / AIDS
Alcohol misuse/dependency	Alcohol related disorders
Alcohol induced cirrhosis	<u>Cirrhosis</u> <u>Alcohol Related Disorders</u>
Allergies – see <u>Hypersensitivity diseases</u>	
Allergies – see Multiple Chemical Sensitivity	
Alzheimer's disease	Organic Brain Disorders
Amino acid metabolism – disorders of	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Amputations	Amputation of limbs guidance note
Amyloidosis	Decision Makers are advised to discuss with the

	Departments Medical Services provider if necessary.
Anaemias:	
Aplastic anaemia	
B12 (pernicious) / folate deficiency anaemia	
Iron deficiency anaemia	<u>Anaemia</u>
Anaemia – Other / type not known	
Sickle cell anaemia	Sickle cell anaemia
Aneurysms:	
Aortic aneurysm	
Cerebral aneurysm	NHS Choices
Aneurysm – Other / type not known	
Angioedema	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Angina	Ischaemic Heart Disease
Ankle and foot disorders:	
Club foot (talipes)	NHS Choices
Forefoot pain (metatarsalgia)	Metatarsalgia
Hallux rigidus / valgus	NHS Choices
Ankle and foot disorder – Other / type not known eg Flat feet	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Ankylosing spondylitis	Back Pain
Anorectal abscess	NHS Choices
Anorexia nervosa	Eating Disorders
Antiphospholipid syndrome (Hughes syndrome)	NHS Choices
Anxiety and depressive disorder - mixed	Anxiety Disorders Depressive Illness
Anxiety disorders:	
Agoraphobia	
Generalised anxiety disorder	
Panic disorder	
Social phobia	Anxiety Disorders
Specific phobias	
Anxiety disorder – Other / type not known	
Anus / Rectum – Diseases of:	
Anorectal abscess	NHS Choices
Fistula in anus	NHS Choices
	THIS CHOICES
Haemorrhoids	NHS Choices
Haemorrhoids Rectal prolapse	NHS Choices
Rectal prolapse	NHS Choices
Rectal prolapse Anus / rectum disease of - Other / type not known	NHS Choices Bowel incontinence
Rectal prolapse Anus / rectum disease of - Other / type not known Aortic aneurysm	NHS Choices Bowel incontinence NHS Choices
Rectal prolapse Anus / rectum disease of - Other / type not known Aortic aneurysm Aortic valve disease	NHS Choices Bowel incontinence NHS Choices Valvular Heart disease
Rectal prolapse Anus / rectum disease of - Other / type not known Aortic aneurysm Aortic valve disease Aplastic anaemia	NHS Choices Bowel incontinence NHS Choices Valvular Heart disease Anaemia Decision Makers are advised to discuss with the
Rectal prolapse Anus / rectum disease of - Other / type not known Aortic aneurysm Aortic valve disease Aplastic anaemia Apraxia Arterial disease (excluding coronary) – Other / type not	NHS Choices Bowel incontinence NHS Choices Valvular Heart disease Anaemia Decision Makers are advised to discuss with the Departments Medical Services provider if necessary

Ankylosing spondylitis	Back Pain
, they losting sportdy it is	Decision Makers are advised to discuss with the
Still's disease (Adult onset)	Departments Medical Services provider if necessary
Osteoarthritis - hip	
Osteoarthritis - knee	
Osteoarthritis of other single joints	<u>Osteoarthritis</u>
Generalised Osteoarthritis / Arthritis	
Psoriatic arthritis	
Reactive arthritis/reiters syndrome	NHS Choices
Rheumatoid arthritis	Rheumatoid Arthritis
Inflammatory arthritis – Other / type not known e.g.: Polyarthritis	<u>Osteoarthritis</u>
Arthrogryposis	NHS Choices
Arthropathy	Contact Medical Services if necessary
Asbestosis	NHS Choices
Ascites	<u>Liver Failure</u>
Asperger syndrome	<u>Autistic Spectrum Disorder</u>
Asthma	<u>Asthma</u>
Ataxias:	
Friedrich's ataxia	NHS Choices
Ataxia – Other / type not known	MIS CHOICES
Ataxic type cerebral palsy	Cerebral palsies in adults guidance note
Atherosclerosis (PVD / Claudication)	Peripheral Vascular Disease
Athetoid type cerebral palsy	Cerebral palsies in adults guidance note
Atrial fibrillation / flutter	Cardiac Arrhythmia
Atrioseptal defect	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Attention Deficit Disorder (ADD) / Attention Deficit Hyperactivity Disorder (ADHD)	Learning Disability
Autism	Autistic Spectrum Disorder
Autistic Spectrum Disorders:	
Asperger's syndrome	Autistic Spectrum Disorder
Autism	
Retts disorder	MedicineNet
Autoimmune cirrhosis	Cirrhosis
Autoimmune disease – Other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Autoimmune hepatitis	Viral Hepatitis
Autoimmune idiopathic thrombocytopaenic purpura (ITP)	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.

Burns	NHS Choices
Bursitis	NHS Choices

C

Look up	Condition
Calcium deficiency	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Cancers of the adrenal gland :	
Neuroblastoma	<u>Malignancy</u>
Cancers of the bone:	
Angiosarcoma	
Chondrosarcoma	
Ewing's sarcoma	
Fibrosarcoma	<u>Malignancy</u>
Giant cell tumour - malignant	<u>Walighancy</u>
Osteosarcoma	
Bone cancer – Other / type not known	
Sarcoma – Other / type not known	
Cancer of the brain and spinal cord	Brain Tumours
cancer of the brain and spinal cord	General Malignancy
Cancer of the breast	Breast cancer
Cancers of Gastrointestinal tract:	
Bowel cancer including: Caecal cancer Colon cancer Sigmoid cancer Rectal cancer Anal cancer	Bowel cancer
Liver cancer	<u>Malignancy</u>
Mouth/Tongue cancer	Cancer of the lips, mouth and oropharynx
Oesophagus - cancer	Oesophageal cancer
Pancreatic cancer	Pancreatic cancer
Stomach cancer	Stomach cancer
Gastrointestinal tract cancer – Other / type not known	<u>Malignancy</u>
Cancers of Genitourinary tract:	
Bladder cancer	Bladder Cancer
Cervical cancer	<u>Cervical cancer</u>
Endometrial (Uterus/Womb) cancer	Endometrial cancer
Kidney cancer	Kidney cancer
Wilms Tumour	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Ovarian cancer	<u>Ovarian cancer</u>
Prostate cancer	<u>Prostate cancer</u>

Testicular cancer	Testicular cancer
Genitourinary tract cancer – Other / type not known	Malignancy
Cancers of Haematological system:	
Hodgkin lymphoma	Hodgkin Lymphoma
Leukaemia lymphoblastic - acute	
Leukaemia lymphocytic - chronic	
Leukaemia myeloid - acute	<u>Leukaemia</u>
Leukaemia meloid - chronic	
Leukaemia – Other / type not known	
Myeloma	<u>Myeloma</u>
Non Hodgkin lymphoma	Non-Hodgkin Lymphoma
Haematological system cancer – Other / type not known	Malignancy
Cancers of Respiratory tract:	
Bronchus / Lung cancer	<u>Lung cancer</u>
Laryngeal cancer	Laryngeal cancer
Mesothelioma	
Lung cancer - Other	Lung cancer
Respiratory tract cancer – Other / type not known	
Cancers of Skin-:	
Melanoma	Malignancy
Skin cancer – Other / type not known	
e.g:	Rodent ulcer
Basal cell / Rodent ulcer	
Cancer - Other / type not known	Malignancy
Primary cancer – site not known	
Bone marrow transplant	Bone marrow transplant
Carbohydrate metabolism – disorders of	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Cardiac arrhythmia – Implantable defibrillator / Pacemaker fitted	Cardiac Arrhythmias
Cardiac arrhythmias:	
Atrial fibrillation / Flutter	
Bradycardia	
Cardiac arrhythmia – Implantable defibrillator / Pacemaker fitted	
Drop attack	Cardiac Arrhythmias
Heart block	
Heart block Stokes Adams attack (Cardiovascular syncope)	
Stokes Adams attack (Cardiovascular syncope)	
Stokes Adams attack (Cardiovascular syncope) Tachycardia	Heart failure
Stokes Adams attack (Cardiovascular syncope) Tachycardia Cardiac arrhythmia – Other / type not known	Heart failure Cardiomyopathy
Stokes Adams attack (Cardiovascular syncope) Tachycardia Cardiac arrhythmia – Other / type not known Cardiac / Heart Failure	

Cardiovascular syncope (Stokes Adams attack)	Cardiac Arrhythmias
Carotid artery stenosis	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Carpal tunnel syndrome	<u>Carpal Tunnel Syndrome</u>
Cataplexy	NHS Choices
Cauda Equina	Back pain
Cellulitis	NHS Choices
Cerebral aneurysm	NHS Choices
Cerebral Palsy:	
Cerebral palsy - Athetoid type	
Cerebral palsy - Ataxic type	
Cerebral palsy – causing hemiparesis	Cerebral palsies in adults guidance note
Cerebral palsy -Quadriplegia type	Cerebral paisies in addits guidance note
Cerebral palsy - Diplegia type	
Cerebral palsy – Other / type not known	
Cerebrovascular accident - (CVA) Stroke	<u>Stroke</u>
Cerebrovascular disease:	
Cerebrovascular accident (CVA)	
Transient ischaemic attack (TIA)	<u>Stroke</u>
Cerebrovascular disease – Other / type not known	
Cervical disc lesion	Back pain
Cervical dystonia / Torticollis	<u>Dystonia</u>
Cervical spondylosis	Painful Neck guidance note
Cervix – Other disease of / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Cervix – Other disease of / type not known CFS

Reflex Sympathetic Dystrophy also known as Complex	Work Related Upper Limb Disorder (WRULD)
Regional Pain Syndrome	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Chronic suppurative otitis media	Chronic Suppurative Otitis Media
Cirrhosis:	
Cirrhosis - Alcohol induced	<u>Cirrhosis</u> <u>Alcohol related disorders</u>
Cirrhosis - Autoimmune	<u>Cirrhosis</u>
Cirrhosis – Other / type not known eg Drug - induced	<u>Cirrhosis</u> <u>Drug - induced</u>
CJD	Organic Brain Disorders
Claudication	Peripheral Vascular Disease
Claw / Hammer toes	Claw / Hammer toes
Cleft lip / Cleft palate	NHS Choices
Clotting disorder – Other / type not known	Bleeding Disorders
Club foot (Talipes)	NHS Choices
COAD	COPD
Coarctation of the aorta	NHS Choices
Coeliac disease	NHS Choices
Cognitive disorder – due to stroke	<u>Stroke</u>
Cognitive disorders:	
Cognitive disorder due to stroke	<u>Stroke</u>
Dementia	Over the Boots Bloods of
Cognitive disorder – Other / type not known	Organic Brain Disorders
Colitis/Crohns disease	<u>Crohn's disease</u>
Collagen & elastic tissue diseases:	
Ehlers Danlos syndrome	Decision Makers are advised to discuss with the
Collagen & elastic tissue disease – Other / type not known	Departments Medical Services provider if necessary.
Colon diseases:	
Constipation	NHS Choices
Diverticular disease / Diverticulitis	<u>Diverticular disease</u>
Colon disease – Other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Compartment syndrome (Volkmann's ischaemia)	Compartment Syndrome / Fractures
Complex Regional Pain Syndrome also known as Reflex Sympathetic Dystrophy	NHS Choices. Work Related Upper Limb Disorder (WRULD) Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Complications of prematurity e.g. Acute Respiratory distress syndrome (ARDS) / Respiratory distress syndrome (RDS) in infants	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Conduct disorder (including oppositional defiant disorder)	Learning Disability
Conductive hearing loss due to trauma	Hearing Impairment in Adults
Conductive hearing loss:	
Chronic suppurative otitis media	Chronic Suppurative Otitis Media
Conductive hearing loss due to trauma	Hearing Impairment in Adults
Mastoiditis	<u>Mastoiditis</u>

Otitis externa - chronic	
Otitis Media with effusion (OME) previously known as	
Chronic Secretory Otitis Media	Hearing Impairment in Adults
Otosclerosis	
Conductive hearing loss – Other cause / cause not known	
Congenital dislocation of hip	<u>Osteoarthritis</u>
Congenital disorders of the gastrointestinal tract :	
Cleft lip	NHS Choices
Cleft lip with cleft palate	NH3 CHOICES
Tracheo-oesophageal fistula/atresia	Decision Makers are advised to discuss with the
Hirschprung disease	Departments Medical Services provider if necessary
Congenital heart disease:	
Atrioseptal defect (ASD)	
Coarctation of the aorta	
Fallots tetralogy	NUIS Chaireas
Patent ductus arteriosus (PDA)	NHS Choices
Ventriculoseptal defect (VSD)	
Congenital heart disease – Other / type not known	
Congenital malformation of the heart – Other / type not	
known	Decision Makers are advised to discuss with the
Noonan syndrome	Departments Medical Services provider if necessary.
Non specific valve problems	
Conjunctiva/Cornea/Eyelids/Lacrimal apparatus diseases:	
Corneal ulceration	
Entropion	
Herpes zoster - ophthalmic	
Keratitis	<u>Visual Impairment – Adult</u>
Keratoconus	<u>Children – Visual Impairment</u>
Orbital cellulitis	Also Decision Makers are advised to discuss with the
Ptosis	Departments Medical Services provider if necessary
Scleritis	
Conjunctiva/cornea/eyelids/lacrimal apparatus disease of – Other / type not known	
Constipation	NHS Choices
Conversion disorder (Hysteria)	Somatoform Disorders
COPD	COPD
Cranial dystonia	<u>Dystonia</u>
Creutzfeldt - Jacob disease (CJD) / Variant Creutzfeldt - Jacob disease (vCJD)	Organic Brain Disorders
Crohn's disease/Colitis	Crohn's disease
Crystal deposition disorders:	
Gout	
Pseudogout	<u>Gout</u>
Crystal deposition disorder – Other / type not known	
CSOM	Chronic Suppurative Otitis Media
Cushing's syndrome	NHS Choices

CVA	<u>Stroke</u>
Cystic fibrosis	NHS Choices and Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Cystitis	Bladder & Urinary tract disorders

D	
Look up	Condition
Deaf /Blind deeming provision (DLA Only)	Hearing Impairment in Adults
	Adult – Visual Impairment
Deafness	Hearing Impairment in Adults
Deep vein thrombosis (DVT)	Phlebitis / Venous disorders
DVT	Phlebitis / Venous disorders
Degenerative neuronal diseases:	
Motor neurone disease	Motor neurone disesase
Degenerative neuronal disease – Other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Delirium	
Dementia Pre – Senile Dementia Senile Dementia Vascular Dementia	Organic Brain Disorders
Dementia with Lewy bodies (DLB)	
Depressive disorder and Anxiety - mixed	Anxiety Disorders Depressive Illness
Depressive disorder / Depression	Depressive Illness
Dermatitis herpetiformis	Skin disease guidance note
Dermatomyositis	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Developmental Coordination disorder also known as Dyspraxia	NHS Choices
Diabetes insipidus	NHS Choices
Diabetes Mellitus:	
Type 1 (insulin dependent)	
Type 2 (insulin or non-insulin dependent)	<u>Diabetes</u>
Diabetes mellitus - Category unknown	
Diabetic neuropathy	<u>Diabetes</u> <u>Peripheral Vascular Disease</u>
Diaphyseal aclasis (Hereditary multiple exostosis)	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary.
Diplegia type cerebral palsy	Cerebral palsies in adults guidance note.
Dislocation of the hip - congenital	<u>Osteoarthritis</u>
Dissociative disorder – Other / type not known	Dissociative disorder
Disturbance of consciousness (Non epileptic) – Other / type not known	<u>Epilepsy</u>
Diverticular disease / diverticulitis	<u>Diverticular disease</u>
Double amputee deeming provision (DLA Only)	Amputation of limbs guidance note
	11

Double vision (Diplopia)	Adult – Visual Impairment Children – Visual Impairment
Down's syndrome	Learning Disability
Drop attack	Cardiac Arrhythmias
Drug misuse	Substance Abuse
Duchenne type muscular dystrophy	Muscular Dystrophy and Spinal Muscular Atrophy guidance note
Duodenal ulcer / Duodenitis	Dispositio disposare
Duodenum – Other disease of / type not known	<u>Dyspeptic disorders</u>
Dupuytren's contracture	NHS Choices
DVT	<u>Venous disorders</u>
Dyscalculia	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Dyslexia	NHS Choices
Dyspraxia	NHS Choices
Dystonia: oromandibular dystonia spasmodic dystonia/laryngeal dystonia hemifacial spasm cranial dystonia generalised dystonia tardive dystonia tardive dyskinesia dystonia (not specified)	<u>Dystonia</u>

Patent ductus arteriosus (PDA)	NHS Choices
PBC	Primary Biliary Cirrhosis
PDA (Patent ductus arteriosus)	NHS Choices
Pelvic inflammatory disease	Pelvic Inflammatory Disease
Pelvic Organ Prolapse -:	NHS Choices for uterine prolapse. For other types of

Uterine Vaginal vault Cystocele Enterocele Rectocele	prolapse such as rectocele, cystocele and enterocele Decision Makers are advised to discuss with the Departments Medical Services provider, if necessary.
Pelvis – Injury/Fracture/Dislocation of	<u>Dislocation</u> Fractures
Pemphigoid (Blisters)	NHS Choices
Pemphigus vulgaris	NHS Choices
Penis disease of – other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Peptic ulcer	<u>Dyspeptic Disorders</u>
Pericarditis	NHS Choices
Peripheral arterial disease:	
Atherosclerosis (Peripheral Vascular Disease /	
Claudication)	Peripheral Vascular Disease
Buerger's disease	
Raynaud's disease / phenomenon	Scleroderma
Peripheral arterial disease (excluding coronary) - Other / type not known e.g: Renal artery stenosis Carotid artery stenosis	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Peripheral nerve injury:	
Brachial plexus	Decision Makers are advised to discuss with the
Peripheral nerve injury – Other / type not known	Departments Medical Services provider if necessary
Peripheral vascular disease (PVD)	Peripheral Vascular Disease
Peritonitis	NHS Choices
Pernicious (B12) folate deficiency anaemia	<u>Anaemias</u>
Personality disorder	Personality Disorders
Pervasive Development Disorder (PDD)	Autistic Spectrum Disorder
Perthes disease	<u>Osteoarthritis</u>
Phenylketonuria (PKU)	NHS Choices
Phlebitis	<u>Phlebitis</u>
Phobias:	
Social phobia	Anxiety Disorders
Specific phobia	
Pick's disease (Fronto-temporal dementia)	Organic Brain Disorders
Pituitary disease – other / type not known	<u>Thyroid Gland Disorders</u>
Plantar Fasciitis	<u>Plantar fasciitis</u>
Platelet disorders:	
Autoimmune (idiopathic) thrombocytopaenic purpura (ITP Platelet disorder - Other / type not known	Departments Medical Services provider if
Pleura – diseases of:	necessary
	Desiries Malana and desired to the transfer of
Empyema Plaural offusion	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Pleural effusion	Departments intented services provider if flecessary

Pneumothorax	
Pleura disease - Other / type not known	
Pleurisy	
Pneumoconiosis:	NUC Chaires
Asbestosis Provence priesis — Cool worker	NHS Choices
Pneumoconiosis – Coal worker	Decision Makers are advised to discuss with the
Silicosis Drawn againsia Other / two and known	Departments Medical Services provider if necessary
Pneumoconiosis – Other / type not known	NUC Chaires
Pneumonia	NHS Choices Desirion Makers are advised to discuss with the
Pneumothorax	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Poliomyelitis / Post polio syndrome	Poliomyelitis
Polyarteritis nodosa	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Polyarthritis	<u>Osteoarthritis</u>
Polycythaemia	<u>Polycythaemia</u>
Polymyalgia rheumatica	Polymyalgia Rheumatica
Polymyositis Porphyria	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Post natal depression	Depressive Illness
Post thrombotic syndrome	Venous Disorders
Post traumatic stress disorder (PTSD)	Post Traumatic Stress Disorder
Post viral syndrome	CFS/ME
Postural Tachycardia Syndrome (PoTS)	Postural Tachycardia Syndrome (PoTS) guidance note
Prader – Willi syndrome	Medline Plus
Presbyacusis	Hearing Impairment in Adults
Pre – Senile Dementia	Organic Brain Disorders
Pressure sore (Ulcer)	NHS Choices
Primary biliary cirrhosis (PBC)	Primary Biliary Cirrhosis
Prion diseases:	
Creutzfeldt-Jacob disease (CJD) / Variant Creutzfeldt-Jacob disease (vCJD)	Organic Brain Disorders
Prion disease – Other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Prolactinoma	Decision Makers are advised to discuss with the Departments Medical Services
Prolapsed Cervical disc	Back Pain / Painful Neck guidance note
Prolapsed Intervertebral disc	Back Pain
Prostate disease of – other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Prostatic disease	Bladder and Urinary Tract Disorders
Protozoal disease:	
Malaria	NHS Choices
Protozoal disease – Other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Pseudogout	Gout
Pseudoseizure (Non epileptic attack disorder)	Epilepsy

Psoriasis	NHS Choices
Psoriatic arthritis	<u>Osteoarthritis</u>
Psychotic disorders:	
Schizoaffective disorder	
Schizophrenia	<u>Schizophrenia</u>
Psychotic disorder – Other / type not known	
PTSD	Post Traumatic Stress Disorder
Pulmonary embolism/Pulmonary heart disease	Venous Disorders
Pulmonary embolus	<u>verious disorders</u>
Pulmonary fibrosis:	
Extrinsic allergic alveolitis	Danisian Malana and disad to disamentials the
Fibrosing alveolitis	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Pulmonary fibrosis – Other / type not known	Departments wedieur services provider ir necessary
Pulmonary hypertension	NHS Choices
Pulmonary infiltration – Other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Pulmonary valve disease	Valvular Heart disease
PVD	Peripheral Vascular Disease

Scleroderma (Systemic sclerosis)	<u>Scleroderma</u>
Scoliosis	Back Pain
Seizure (Epileptic) - unclassified	<u>Epilepsy</u>
Senile dementia	Organic Brain disorders
Sensorineural hearing loss:	
Congenital deafness	
Labyrinthitis	
Menieres disease	
Presbyacusis	Hearing Impairment in Adults
Sensorineural hearing loss – due to trauma	
Causes of sensorineural hearing loss - Other / cause not known	
Sensorineural hearing loss – due to trauma	
Sheehan's Syndrome	Decision Makers are advised to discuss with the

	Departments Medical Services provider if necessary
Short-sightedness (Myopia)	Adult – Visual Impairment
	<u>Children – Visual Impairment</u>
Shoulder disorders:	NHS Chaicas
Adhesive capsulitis (Frozen shoulder)	NHS Choices Work Related Upper Limb Disorder (WRULD)
Rotator cuff disorder	Decision Makers are advised to discuss with the
Shoulder instability	Departments Medical Services provider if necessary
Shoulder disorders - Other / type not known	
Sickle cell anaemia	Sickle Cell Anaemia
Silicosis	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Sinusitis	NHS Choices
Sjogren's syndrome	NHS Choices
Skin disease – other / type not known	Skin Disease guidance note
Skin infections:	
Cellulitis	NHS Choices
Impetigo	NHS Choices
Skin infection - Other / type not known e.g.: Shingles (Herpes Zoster)	Skin Disease guidance note
SLE	<u>SLE</u>
Sleep apnoea - obstructive	NHS Choices
Slipped upper femoral epiphysis	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Small bowel – diseases of:	
Coeliac disease	<u>Ulcerative colitis</u>
Disease of small bowel - Other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Social phobia	Anxiety Disorders
Somatoform & Dissociative disorders:	
Body dysmorphic disorder (BDD)	Somatoform Disorders
Conversion disorder (Hysteria)	<u>Somatorom Pissiacis</u>
Dissociative disorder Other / type not known	<u>Dissociative Disorders</u>
Somatoform disorder - Other / type not known	Somatoform Disorders
Spasmodic dysphonia / laryngeal dystonia	Dystonia
Spastic diplegia	Cerebral Palsies in adults guidance note
Specific back pain – other / type not known	Back Pain
Specific learning disorders -:	
Speech or language disorders e.g. Stutter	<u>Learning Disability</u>
Dyslexia	NHS Choices
Dyspraxia - also known as Developmental coordination disorder	NHS Choices
Specific learning disorder – Other / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Specific phobia	Anxiety Disorders
Speech and Language delay	Learning Disability
Speech, Language & Phonological Disorders e.g	Learning Disability
	21

Dysphonia Stammer / Stutter	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Spina bifida	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Spinal cord compression:	
Paraplegia - traumatic	Spinal Injury guidance note
Tetraplegia/Quadriplegia - traumatic	Spinal Injury guidance note
Syringomyelia / Syringobulbia	Decision Makers are advised to discuss with the
Cause of spinal cord compression - Other / type not known	Departments Medical Services provider if necessary
Spinal muscular atrophy	Spinal Injury guidance note
Spondylosis/Spondylitis (OA) (if pathological/neurological changes present)	Back Pain
Spinal stenosis	
Spine – Injury/Fracture/Dislocation of	Back Pain
Spondylolisthesis	
Sprain/Strain lower limb	<u>Sprain</u>
Sprain/Strain Upper limb	
Squint (Strabismus)	Adult – Visual Impairment Children – Visual Impairment
Steatohepatitis - Non alcoholic (NASH)	<u>Viral Hepatitis</u>
Still's disease (adult onset)	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Stokes Adams attack (Cardiovascular syncope)	Cardiac Arrhythmias
Stomach – other disease of / type not known	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Strabismus (Squint)	Adult – Visual Impairment Children – Visual Impairment
Stress incontinence	Bladder and Urinary Tract Disorders
Stress reaction disorders:	
Post traumatic stress disorder (PTSD)	Post Traumatic Stress Disorder
Stress reaction disorder - Other / type not known e.g. Adjustment disorders	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Stroke - Cerebrovascular accident (CVA)	<u>Stroke</u>
Substance (mis) use disorders:	
Alcohol misuse	Alcohol Related Disorders
Drug misuse	Substance Abuse
Sudek's atrophy	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Superficial thrombophlebitis	<u>Venous Disorders</u>
Syncope (Faint) – other / type not known	<u>Fainting</u>
Symphysis Pubis Disorder	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Symptomatic HIV (AIDS)	HIV / AIDS
Syringobulbia / Syringomyelia	Decision Makers are advised to discuss with the Departments Medical Services provider if necessary
Systemic lupus erythematosus (SLE)	SLE
Systemic sclerosis (Scleroderma)	Scleroderma
